**Dates Received or Inspected:** 5/1/2006 **through** 5/15/2006

<b>Region</b>	<b>Inspection Date</b>	<b>Date Received</b>	<b>Suspected Source Owner/Operator</b>	<b>City</b>	<b>County Name</b>	<b>Type of Complaint</b>	<b>Complainant</b>	<b>Inspector Initials</b>	<b>NOV</b>
KCRO	5/14/2006	4/11/2006	BILL HOWARD	Urich	Bates	Open Dumps	Anonymous	JLK	
<b>Comments</b> This complaint cannot be investigated without more information from the complainant (address, directions, etc.).									
<b>Comp. No.</b>	KC10700	<b>Comp. Info</b>	The complainant stated the reported party is dumping trash around a creek bottom. There is a large amount of trash in the area.						
KCRO	5/1/2006	5/1/2006	1203 N. MAIN, INDEPENDENCE, M	Independence	Jackson	Other	Anonymous	ANS	
<b>Comments</b> Ms. Adrienne Smith, an inspector with the Missouri Department of Natural Resources' Kansas City Regional Office (KCRO), referred this complaint to the U.S. Environmental Protection Agency.									
<b>Comp. No.</b>	KC10684	<b>Comp. Info</b>	The complainant stated the reported party is releasing freon into the air.						
KCRO	5/1/2006	5/1/2006	UNKNOWN	Cameron	Clinton	Fugitive Dust	John Schindler	RAV	
<b>Comments</b> Mr. Richard Vani, an inspector with the KCRO, noted road dust fugitive emissions are exempt from air quality regulations.									
<b>Comp. No.</b>	KC10688	<b>Comp. Info</b>	The complainant reported a freight yard is being constructed near his home, which is on a gravel road. The complainant is concerned about dust from truck traffic.						
KCRO	5/17/2006	5/1/2006	ALONZO WHITE	Kearney	Clay	Burning	Anonymous	MRM	
<b>Comments</b> Mr. Michael Miller, an inspector with the KCRO, observed the reported party burning vegetative waste in a non-agriculturally zoned area without permit and issued Notice of Violation (NOV) #A2454KC.									
<b>Comp. No.</b>	KC10712	<b>Comp. Info</b>	The complainant reported a resident in the subdivision is periodically burning rubbish. The burning produces a dark, foul smelling smoke. The reported party's residence is located in a cul-de-sac. The reported party's residence is one of three houses with property that backs up to the lake. From the cul-de-sac, this is the house on the right. The complainant believes the reported party typically burns in the evening.						
KCRO	5/3/2006	5/2/2006	LPG VENTURES	Raytown	Jackson	Odors	Kenny Smith	RAV	
<b>Comments</b> Mr. Vani did not observe any odors at the time of his investigation. The company is in the process of putting in new valves in tanks they will ship out, and it is impossible to prevent some release of the product.									
<b>Comp. No.</b>	KC10685	<b>Comp. Info</b>	The complainant stated the reported party is releasing gas into the air and it is strong enough to smell when driving by.

**Dates Received or Inspected:** 5/1/2006 **through** 5/15/2006

<b>Region</b>	<b>Inspection Date</b>	<b>Date Received</b>	<b>Suspected Source Owner/Operator</b>	<b>City</b>	<b>County Name</b>	<b>Type of Complaint</b>	<b>Complainant</b>	<b>Inspector Initials</b>	<b>NOV</b>
KCRO	5/4/2006	5/4/2006	DARLY ROBERTSON	King City	Jackson	Odors	Anonymous	RAV	
<b>Comments</b>	Mr. Vani easily detected the odor with a scentometer at 7:1 dilutions on two trials 15 minutes apart, however, air samples showed an intensity level of 16 which is far below the 110 limit for intensity. Mr. Vani noticed the facility uncovered lagoon #17, which is the probable source of the odor.								
<b>Comp. No.</b>	KC10671	<b>Comp. Info</b>	On April 28, 2006, the complainant reported, via the internet, a large hog confinement in southern Gentry County has very offensive odors from their lagoons. The complainant lives directly East of Fairport and anytime the wind is in the North, the complainant can smell strong hog manure. The smell is very potent, like carrion. It is prevalent at all times. The complainant cannot open their windows in the house when the wind is out of the North and they live approximately ten miles away.						
KCRO	5/9/2006	5/4/2006	DARLY ROBERTSON	Oak Grove	Jackson	Asbestos	Anonymous	RAV	A2501
<b>Comments</b>	Mr. Vani issued NOV #A2501KC to the demolition contractor, and NOV #A2502KC to the property owner for failure to inspect and failure to submit notification to the department.								
<b>Comp. No.</b>	KC10672	<b>Comp. Info</b>	The complainant reported a house and a commercial building was recently demolished in Oak Grove. The complainant believed there was transite siding on the buildings.						
KCRO	5/4/2006	5/4/2006	TONY HEWITT	Blue Summit	Jackson	Burning	Anonymous	ACB	
<b>Comments</b>	At the time of the investigation, Mr. Aaron Bleibaum, an inspector with the KCRO, did not observe any visible evidence of open burning occurring at the reported party's property. Mr. Bleibaum reminded the reported party burning of insulated copper wire is a violation of the open burning restrictions.								
<b>Comp. No.</b>	KC10686	<b>Comp. Info</b>	The complainant stated the reported party previously burned insulation off wire in a barrel stove in his yard. However, now the reported party is burning in a stove inside his garage.						
KCRO	5/4/2006	5/4/2006	DOUG WALKER	Stanberry	Gentry	Burning	Bob Schwartz	MRM	A2451
<b>Comments</b>	Mr. Miller observed the reported party illegal burning waste lumber and plastic drain tiles. Mr. Miller issued NOV #A2451KC.								
<b>Comp. No.</b>	KC10689	<b>Comp. Info</b>	The complainant stated on May 3, 2006, the reported party open burned black, plastic drainage tile along with other non-household waste in the reported party's back-yard. The complainant believes the reported party previously burned shingles.						
KCRO	5/5/2006	5/5/2006	NATIONAL STARCH	North Kansas City	Clay	Odors	Teresa Brimacombe	RAV	A2417
<b>Comments</b>	Mr. Vani issued Notice of Excess Emissions (NOEE) #A2417KC for excess odors.								
<b>Comp. No.</b>	KC10673	<b>Comp. Info</b>	The complainant reported a sulfur type smell when going over the Heart of America Bridge on the way to work at 8:10 a.m. The complainant can hardly breathe.						
KCRO	5/5/2006	5/5/2006	NATIONAL STARCH	North Kansas City	Clay	Odors	Gary Shy	RAV	A2417
<b>Comments</b>	Mr. Vani issued NOEE #A2417KC to the facility for excess odors.								
<b>Comp. No.</b>	KC10674	<b>Comp. Info</b>	The complainant left a message reporting wastewater odors from National Starch.

<b>Comments</b> Mr. Miller observed the reported party illegally burning non-household waste and issued NOV #A2452KC.									
<b>Comp. No.</b>	KC10669	<b>Comp. Info</b>	The complainant stated the reported party is tearing down a shed and burning illegal materials as a means of disposal.						
KCRO	5/16/2006	5/9/2006	TYSON	Dresden	Pettis	Odors	Ralph Randall	MRM	
<b>Comments</b> Mr. Miller detected a strong odor and conducted two scentometer trails, which did not detect an odor. The facility reported no equipment malfunctions on any control devices.									
<b>Comp. No.</b>	KC10698	<b>Comp. Info</b>	The complainant reported since May 6, 2006, at 8:30 a.m., odor from Tyson's Rendering Plant is very bad.						
KCRO	5/26/2006	5/9/2006	TYSON	Dresden	Pettis	Odors	Ralph Randall	ACB	
<b>Comments</b> Mr. Bleibaum did not detect any nuisance odors while in the area but did detect a slight odor at the rendering plant.									
<b>Comp. No.</b>	KC10710	<b>Comp. Info</b>	The complainant reported odors the morning of the complaint from the Tyson rendering plant. The odors were especially bad when winds were out of the East.						
KCRO	5/16/2006	5/12/2006	MARTENS HOMES, LLC	Belton	Cass	Burning/Open Dumps	Vick Bland	RAV	A2504
<b>Comments</b> Mr. Vani issued NOV #A2504 for open burning trade waste.									
<b>Comp. No.</b>	KC10694	<b>Comp. Info</b>	The complainant stated the reported party is taking building material to a site, piling it up and then burning it. This has been going on for several months.						
KCRO	5/12/2006	5/12/2006	APAC QUARRY	Sugar Creek	Jackson	Fugitive Dust	Barbara Gearhart	MRM	
<b>Comments</b> At the time of his inspection, Mr. Miller was unable to document dust crossing property boundaries.									
<b>Comp. No.</b>	KC10702	<b>Comp. Info</b>	The complainant is getting large amounts of dust on their property when the APAQ quarry is blasting, which has been several times this week. The latest incident was the date of the complaint at 10:30 a.m. The complainant spoke to "Bill" at the blasting company, who denied the responsibility for the dust.						
KCRO	5/16/2006	5/15/2006	SAM'S AUTO BODY	Lathrop	Clinton	Burning	Anonymous	MRM	A2453
<b>Comments</b> Mr. Miller observed the reported party illegally burning railroad ties and issued NOV #A2453KC.									
<b>Comp. No.</b>	KC10670	<b>Comp. Info</b>	The complainant stated a local business is burning a large pile of railroad ties, which was creating a large black smoke plume.

**Dates Received or Inspected:** 5/1/2006 **through** 5/15/2006

<b>Region</b>	<b>Inspection Date</b>	<b>Date Received</b>	<b>Suspected Source Owner/Operator</b>	<b>City</b>	<b>County Name</b>	<b>Type of Complaint</b>	<b>Complainant</b>	<b>Inspector Initials</b>	<b>NOV</b>
KCRO	5/15/2006	5/15/2006	DIRK MOSS	Kearney	Clay	Fugitive Dust	Dave Manchon	MRM	
<b>Comments</b>	Mr. Miller did not observe any off-premises dust emissions at the time of his inspection. Mr. Miller advised Mr. Moss the department would issue a NOV if off-premises dust is documented by an inspector. In a request to the reported party's inquiry concerning agricultural exemption, Mr. Miller left a message for the reported party regarding the state regulations. Mr. Miller later discussed with the reported party a means of reducing dust including shielding, watering, moving the track to south, and the scheduling of practice times. Mr. Miller gave the reported party a telephone number for Mr. Dave Clements, with the Clay County Planning Commission, concerning the reported party meeting with their neighbors regarding dust and noise.								
<b>Comp. No.</b>	KC10693	<b>Comp. Info</b>	On May 15, 2006, at approximately 3:15 p.m., the complainant (located at 13612 Scott Avenue) reported dust from dirt bikes on the track. The complainant believes the dust is going across the property lines. On May 15, 2006, at 9:04 a.m., the complainant sent an E-mail stating four dump trucks of dirt were brought onto the reported party's property over the previous weekend. The complainant believed the track was used on April 26, and May 8, 2006. The track was put in approximately five years ago when the reported party acquired the land.						
NERO	5/2/2006	4/19/2006	UNKNOWN	Unionville	Putnam	Odors	Anonymous	DLK	
<b>Comments</b>	Mr. Don Kinkhorst, an inspector with the department's Northeast Regional Office (NERO), noted the department does not have regulatory authority for odors on Confined Animal Feeding Operations of less than Class 1A status. Mr. Kinkhorst referred the complaint to the Missouri Department of Agriculture.								
<b>Comp. No.</b>	NE12425	<b>Comp. Info</b>	The complainant reported an animal feeding operation is stockpiling dead pigs in a pit constructed on the reported party's property and allowing dead pigs to rot. The odor from the rotting dead animals is so bad you cannot tolerate driving down the road past the operation.						
NERO	5/3/2006	4/28/2006	TNT EXCAVATING	Columbia	Boone	Asbestos	Paul Jeffery	BJ	1021N
<b>Comments</b>	On May 2, 2006, according to the City of Columbia Protective Inspections Department, the property is owned by Business Loop Development and the contractor is TNT Excavating, of New Franklin. On May 3, 2006, Mr. John Briney, an inspector with the NERO, went to the demolition project site on Business Loop I-70. Mr. Briney spoke with Mr. Otis Lawson, who was operating a track hoe at the site. Mr. Lawson explained TNT Excavating was the contractor on the site. Mr. Lawson told Mr. Briney there had been a gas station, a car lot, a bar, and one house located at the site. The majority of the material had already been removed when Mr. Briney arrived on-site. Mr. Lawson was working on the area that previously had been a car lot. Mr. Lawson put Mr. Briney in touch with Mr. Wade Thompson, with TNT Excavating. Mr. Thompson explained Business Loop Development, LLC are the owners of the property and supposedly taken care of all the permits and paperwork for the project. Mr. Thompson explained that Gehm Environmental performed the asbestos inspections and removal for the project. Mr. Thompson also stated B & K Environmental did the testing and notification regarding the tanks from the gas station. Mr. Briney issued an NOV for the violation of 6.080 Emission Standards for Hazardous Air Pollutants. The company failed to submit demolition/renovation notification as required by 40 CFR Part 61, Subpart M, National Emission Standard for Asbestos. Mr. Briney issued NOV #1017 Business Loop Development, LLC and NOV #1016 to TNT Excavating.								
<b>Comp. No.</b>	NE12471	<b>Comp. Info</b>	The department received an e-mail stating the complainant observed buildings being crunched the night before the date of the complaint as he drove by on Interstate 70. The APCP does not appear to have an approved demolition notice for either building. The city stated they issued a local demolition. Permit 807 Business 70 West is for the Bears Breath Inn. Permit 809 is for a gas station once, and most recently a car lot. Many years ago, the complainant inspected an underground storage tank complaint at the gas station location and does not believe the facility ever removed the piping. The facility is old enough the complainant suspects some petroleum contamination around the pump islands and pipe trench. The fuel and used oil tanks are gone. The last time the complainant was on site, the hydraulic oil underground storage tank used for the lift was still there. The complainant believes samples should be taken of any suspect asbestos containing materials and photographed accordingly. The Bears Breath had a fire a few years ago and the complainant believes he had them inspected afterward, so it may be in the file. The facility did have a ceiling spray and nine by nine tiles. The complainant believes the texture tested negative.

**Dates Received or Inspected:** 5/1/2006 **through** 5/15/2006

<b>Region</b>	<b>Inspection Date</b>	<b>Date Received</b>	<b>Suspected Source Owner/Operator</b>	<b>City</b>	<b>County Name</b>	<b>Type of Complaint</b>	<b>Complainant</b>	<b>Inspector Initials</b>	<b>NOV</b>
NERO	5/1/2006	4/28/2006	PHILLIPS GRADING	Columbia	Boone	Burning	Don Schuster	SMB	
<b>Comments</b>	Mr. Steve Boone, an inspector with the NERO, drove by the area at 4:45 p.m. but did not find any evidence of burning taking place. Phillips Grading has a permit to conduct burning of vegetative waste at the property. On May 1, 2006, Mr. Boone contacted Mr. Marshall Clayton Farf, with the Columbia Fire Department. On May 1, 2006, Mr. Farf was on site twice in the morning and once in the early afternoon, checking on smoke from this site. Mr. Farf was concerned the smoke could create a nuisance for 1-70 traffic being re-routed down Clark Lane. Mr. Farf stated the burning was taking place in a pit and the company is using an air curtain distructor, which is required for locations within the city limits. Mr. Boone contacted the complainant, who stated burning took place at approximately 12:52 p.m. The City of Columbia Fire Department conducted an investigation and did not issue a violation of burn permit.								
<b>Comp. No.</b>	NE12502	<b>Comp. Info</b>	The complainant stated an unknown contractor dozed brush and timber is now burning within the city limits without an air curtain distructor. The complainant also stated there is equipment on site and running but he does not see any identity on the vehicles.						
NERO		5/1/2006	K & K WOOD PRODUCTS	Centralia	Boone	Fugitive Dust	Skip Elkin		
<b>Comments</b>									
<b>Comp. No.</b>	NE12472	<b>Comp. Info</b>	The complainant reported K & K Wood Products has a significant amount of sawdust on the property. The complainant is concerned they may have a sawdust fire like the other Centralia sawmill. Also, sawdust is being loaded onto tractor trailers using a vacuum machine and dust from the operation blows everywhere including on the neighboring properties, especially when the trailer gets full. There is no evidence of berms around the property boundaries that would keep sawdust from washing from the site during storm events. The complainant believes the facility may not have the required storm water permit.						
NERO	5/5/2006	5/1/2006	DOOLITTLE TRAILER	Holts Summit	Callaway	Burning	Barbara Winters	MIH	
<b>Comments</b>									
<b>Comp. No.</b>	NE12476	<b>Comp. Info</b>	The complainant stated the smoke odors from an outside furnace at Doolittle Trailers are bothering tenants in the complainant's apartment complex. The apartment complex is adjacent to the reported party's property. The complainant also stated burning is conducted on a sporadic basis. The reported party was burning on the morning of May 1, 2006. Temperatures were in the low to mid 50's that morning.						
NERO	5/1/2006	5/1/2006	PSF WHITETAIL FINISH SITE	Unionville	Putnam	Odors	Melody Torrey	SMB	
<b>Comments</b>	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the lab prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
<b>Comp. No.</b>	NE12519	<b>Comp. Info</b>	On April 30, 2006, the complainant filed the following three reports of odors, "April 29, 2006, Fred, Leta, and Melody Torrey would like to file an odor complaint, the odor is still with us and it still smells like pure hog manure at our place. I went out mushroom hunting while the odor was present, but the longer I stayed the sicker I got. I had a headache and my chest was hurting from the odor. When will the state of Missouri give us relief from this company and their factory farm with a chronic air pollution problem?" and "April 29, 2006, Melissa Nemmers would like to file an odor complaint. She stated the odor was horrible while she was out mushroom hunting and while at our house. She wished the state of Missouri would do something about this company and the problem they are having with their odor." and "April 29, 2006, I have received an anonymous complaint for the odor the individual encountered while visiting our house this evening. It was stated by the individual, the odor was horrible and discouraged you from being outside."						

**Department of Natural Resources**  
**Air and Land Protection Division**  
**Monthly Air Pollution Control Program Detail Report**

*note: "Comp. Info" refers to complainant information. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

**Dates Received or Inspected:** 5/1/2006 **through** 5/15/2006

<b>Region</b>	<b>Inspection Date</b>	<b>Date Received</b>	<b>Suspected Source Owner/Operator</b>	<b>City</b>	<b>County Name</b>	<b>Type of Complaint</b>	<b>Complainant</b>	<b>Inspector Initials</b>	<b>NOV</b>
NERO	5/4/2006	5/1/2006	PSF GREEN HILLS FINISH FARM	Green City	Sullivan	Odors	Sonja Christen	SMB	
<b>Comments</b>	Mr. Boone noted odors were extremely strong and a site investigation is warranted for the evening of May 4, 2006, since weather conditions on that evening are expected to be very similar to the previous evening weather conditions. However, Mr. Boone will not conduct an on-site investigation because samples are not able to be collected after 5:00 p.m. on a Thursday and still arrive at the lab in Minnesota to be analyzed by an olfactometer panel. Mr. Boone noted winds from the North Northwest at three to seven miles per hour for all of the reports. Also, skies were overcast and the humidity was high. No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the lab prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
<b>Comp. No.</b>	NE12523	<b>Comp. Info</b>	On May 4, 2006, at 9:45 and 9:46 a.m., the complainant reported the following three incidences of strong odors from PSF Green Hills, "Gary Perkins called at 8:00 a.m. on May 4, 2006, to report strong odors at his house. It was a six. He also reported odors on Wednesday evening at a five." and "We had odors at our house this morning, May 4, 2006, from 7:00 to 8:30 a.m. at a five or six)." The complainant rated the odor on a scale of one to five, with five representing the strongest odors.						
NERO	5/2/2006	5/2/2006	UNKNOWN	Columbia	Boone	Other	Bonnie Winkie	SMB	
<b>Comments</b>	Mr. Boone noted winds were blowing from the East to Northeast at the time the complainant reported the conditions. In that direction (approximately one and a half miles), a construction site is located, and an asphalt plant is located within eight and a half miles. The construction site and the asphalt plant were not operating because of the wet weather. Mr. Paul Jeffery, with the department's Air Pollution Control Program (APCP), noted tree pollen falling heavily in the Columbia area over the weekend of the complaint. The tree pollen matches the consistency and color of the material the complainant described. Mr. Boone contacted the complainant by telephone and explained the tree pollen is likely the source of the residue found on her vehicle. Mr. Boone did not find a responsible facility. Mr. Boone believes tree pollen to be the source of the particulate on the complainant's vehicle.								
<b>Comp. No.</b>	NE12503	<b>Comp. Info</b>	The complainant reported on Saturday, April 29, 2006, between 3:00 p.m. and 4:30 p.m., a residue falling on her car while she was shopping at the Home Depot, Lowes and Sams Club stores in Columbia. The residue is a light tan color and it fell with the rain, but was dry to the touch. There was enough residue the complainant had to wash her car afterwards.						
NERO	5/3/2006	5/3/2006	PSF GREEN HILLS FINISH FARM	Green City	Sullivan	Odors	Rolf Christen	SMB	
<b>Comments</b>	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the lab prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
<b>Comp. No.</b>	NE12521	<b>Comp. Info</b>	On May 3, 2006, the complainant filed the following report of odors from PSF Green Hills, "Avis Lunsford called this morning and reported the following odor occurrences at her house: 5:30 p.m. yesterday evening (Tuesday), and again this morning all morning. It must have been Green Hills."						
NERO	5/4/2006	5/4/2006	PSF SOMERSET FARM	Powersville	Mercer	Odors	Conrad Eurom	SMB	
<b>Comments</b>	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the lab prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
<b>Comp. No.</b>	NE12504	<b>Comp. Info</b>	On May 4, 2006, the complainant reported a pig stink at his house and all the way up to Route M, North of the complainant's house. The complainant noticed the odor on May 3, 2006, at 10:00 p.m. The complainant stated the odors were not present at 7:30 p.m., but are present the morning of the complainant at 8:30 a.m.

<b>Comments</b>									
<b>Comp. No.</b>	NE12484	<b>Comp. Info</b>	The complainant reported a neighbor burns inappropriate materials on a daily basis causing significant air pollution. At the time of the complaint, the reported party is burning at least one tire. The department's Environmental Emergency Response Team (EER) contacted the local fire officials and requested they respond and investigate. Chief Joe Moore, of the local fire district updated the EER and stated the reported party did have a tire in the fire, which has been removed and the fire extinguished. The local fire department officials advised the reported party on wastes that are acceptable to burn.

<b>Comments</b>	Mr. Dennis Lyons, an inspector with the department's Southeast Regional Office (SERO), observed an area where the reported party burned several tires and car seats to remove the non-valuable material and to expose the recyclable steel underneath. Mr. Charles King was on the reported party's property at the time of Mr. Lyons investigation and stated the reported party was not on-site, and the reported party lives in Cape Girardeau. Mr. King did not seem to know how the burned seats and tires got there. Mr. Lyons collected photographs and referred the complaint to the SERO Air Pollution Unit for determination of violations.								
<b>Comp. No.</b>	SE6304	<b>Comp. Info</b>	The complainant reported open burning of solid waste, tires and aluminum.						
SERO	5/5/2006	4/4/2006	JAY BRICKEL	Poplar Bluff	Butler	Other	Anonymous	TJA	
<b>Comments</b>	Mr. Travis Abernathy, an inspector with the SERO, investigated the complaint and found the reported party is operating an off-road vehicle course with mud pits and hill climbing. The course is located near Beaver Dam Creek, which is a tributary to the Little Black River. With assistance from the Missouri Department of Conservation, the reported party has marked four designated crossings along the Beaver Dam Creek. Signs are posted throughout the property indicating the crossing and prohibiting alternate access routes to the creek. Mr. Abernathy believes the main mud pit area has the potential to cause polluting to waters of the state. The pit is discharged into the Beaver Dam Creek. There are crossings with culverts installed. One of the crossings is closed during the event to prevent sediment from entering the creek. The gate is reopened after the event and when the water clears up. To best eliminate this potential for pollution, Mr. Abernathy recommended the main mud pit be phased out and an alternate location be chosen. Mr. Abernathy suggested the preferred location would be in the adjacent field or elsewhere from the stream. Mr. Abernathy also recommended the creek crossing entrances be stabilized with gravel. A 404 permit from the Corps of Engineers will be required if fill material is placed in a stream. Mr. Abernathy recommended the reported party contact Mr. Lewis Clarke, from the Corps of Engineers, before any materials are placed into the stream.								
<b>Comp. No.</b>	SE6479	<b>Comp. Info</b>	The complainant stated the reported party has an off-road vehicle course and the trucks and four-wheelers are driving in the river, making the water muddy.

<b>Comments</b>									
Mr. Raney noted the department cannot regulate this type of activity since it is a residential dwelling having fewer than four dwelling units. Since the latency period is years for asbestos disease, Mr. Raney believes it is unlikely the previous tenants got sick from asbestos exposure. Mr. Raney also noted asbestos diseases are typically lethal and include: lung cancer, asbestosis and mesothelioma. Mr. Raney believes the reported party should check the house for mold issues as mold is much more likely to cause illness from relatively short-term exposure in a brief latency period, as opposed to the much longer latency period for asbestos disease. No further action necessary at this time.									
<b>Comp. No.</b>	SE6665	<b>Comp. Info</b>	The complainant stated the reported party is continues to rent a house with asbestos insulation in it even though the previous tenants got sick. The complainant also stated the reported party drilled holes in the house all over and had regular insulation blown in and it stirred up the asbestos.

SWRO	5/18/2006	5/10/2006	SONNY	Mountain Grove	Douglas	Burning/Other	Mike Warner	GLE	
<b>Comments</b> At the time of the inspection, Ms. Evans discovered a classic outdoor wood furnace, burning wood and untreated lumber sticks from Hutchens. The reported party installed the stove in February and takes the ashes to Hutchens for disposal in their dumpsters. Ms. Evans did not find any evidence of tires, solvents or other things in or around the stove. Ms. Evans suggested the reported party add another section to the stove chimney in order to raise the emission point. The reported party stated he would do this. Ms. Evans did not note any violations.									
<b>Comp. No.</b> SW8562 <b>Comp. Info</b> The complainant stated the reported party is burning solvent, waste oil, plastic, and pieces of tires in an outdoor woodburning stove. The reported party's stove also heats water for the house, which is why the reported party is continuing to use it. The complainant believes the reported party has been burning these items for approximately one week. Black tar is oozing down the sides of the chimney pipe. The complainant has reported this to the city, but the city hasn't done anything. The smell is oppressive and is getting into resident's homes. The department can contact the complainant if further information is needed.

Winds are from the North. It must be Green Hills." and "We had light to moderate odors most of the afternoon yesterday and again early this afternoon at our house. Winds were from the North so it must be Green Hills." On May 16, 2006, the complainant filed the following report on PSF Green Hills, "We are getting odors at our house this morning. Winds are from the North. It must be Green Hills."						
NERO	5/19/2006	5/18/2006	PSF MILAN PORK PROCESSING F	Milan	Sullivan	Odors	Anonymous	BJ	
<b>Comments</b>	Mr. John Briney conducted an odor investigation on May 19, 2006, from 10:45 a.m. until 11:45 a.m. Mr. Briney predicted winds were blowing out of the South Southeast. Upon Mr. Briney's arrival to the area winds were intermittent with calm periods, and periods with the wind blowing out of the South Southwest. Mr. Briney did not detect odors to the North Northwest of the PSF Packing Plant. At 11:02 a.m., Mr. Briney detected a burnt hair/cooking odor at the west end of the Elmwood Lake dam (this location is Northeast of the facility). Odors varied with the wind. Mr. Briney did not detect odors at the two to one dilution threshold with the Nasal Ranger. Upon further investigation, Mr. Briney did not detect odors in any other areas downwind of the plant. Following the investigation, Mr. Briney contacted Mr. Mark Allen, with PSF, and informed Mr. Allen of his findings. Mr. Briney did not issue a violation of the odor regulation during the investigation on May 19, 2006.								
<b>Comp. No.</b>	NE12547	<b>Comp. Info</b>	The complainant filed the following report of odors from PSF Milan Packing Plant on May 12, 2006, at 5:56 p.m., "At 1:00 p.m. and again just before 3:00 p.m., terrible odors were experienced from the Milan Packing Plant. The odors are rated a four on a scale of one to five. The odors were experienced one quarter mile East of the Highway 6 bridge, East of Milan as you start up the hill."

<b>Comments</b>									
Before visiting the site Mr. Briney checked the files and did not find an issued burn permit for the City of Laclede. At the City of Laclede brush dumping site, Mr. Briney found a large pile of brush burning. Mr. Briney observed one house to the North and an auto shop business to the East that were less than 200 yards from the burn site. The reported party was not on the property at the time of the investigation. Mr. Briney stopped by the City office, but it was closed. Mr. Briney later contacted Mayor Karen Collier by telephone. Ms. Collier stated she did not realize the City is required to obtain a burn permit. Mr. Briney recommended the fire be extinguished. Ms. Collier stated she would contact someone to extinguish the fire. Mr. Briney also explained some of the open burning requirements to Ms. Collier and offered to send additional information concerning the issue. Mr. Briney noted the City of Laclede is in violation of Missouri Open Burning Restrictions. The City failed to obtain an Open Burning Permit prior to conducting burning.									
<b>Comp. No.</b>	NE12561	<b>Comp. Info</b>	The complainant reported someone set a large brush pile on fire at the City Brush Depot in Laclede. The complainant also reported the smoke from the fire is blowing towards a couple of houses. The complainant believes the burn area is less than 200 yards from the nearest occupied structure and there is no air curtain distructor being used.

An investigation will be scheduled during the next on-site visit to this facility.									
<b>Comp. No.</b>	NE12563	<b>Comp. Info</b>	On May 22, 2006, the complainant reported odors from PSF Whitetail as follows, "May 3, 2006, Fred and Leta Torrey would like to file an odor complaint. The odor was bad that morning." and "May 6, 2006, Fred and Leta would like to file an odor complaint. The odor was terrible that morning." and "May 7, 2006, Fred and Leta would like to file an odor complaint. The odor was terrible off and on all morning." and "May 8, 2006, I would like to file a odor complaint. As I drove by the factory farm I encountered strong gassy/lagoon odors coming off their sites. The odor made it next to impossible to breathe. It burned my eyes and my nose." and "May 19, 2006, Fred and Leta Torrey would like to file an odor complaint. The odor was bad that morning." and "May 21, 2006, Fred, Leta, and Melody Torrey would like to file an odor complaint. The odor has been with us off and on the entire day. I was out mowing this evening and finally gave up due to the odor. The odor is a strong lagoon smell to a strong barn smell." and "May 22, 2006, Fred, Leta, and Melody Torrey would like to file an odor complaint. The odor is still with us and has been off and on all day. I finally gave up working outside due to the odor. Not only do my clothes smell like hog manure, but my hair does also. The odor was a strong lagoon smell and now it is a mix between it and to a strong barn smell, which started to move in this evening. Around 6:00 p.m. the odor was horrible out and growing worse."

<b>Comments</b>									
<b>Comp. No.</b>	NE12582	<b>Comp. Info</b>	The complainant reported open burning of trade waste at Alelco, Incorporated at the intersection of Route J and MM on the west side of New Bloomfield approximately one quarter of a mile from the city limits sign. The complainant stated Alelco, Incorporated is located between the old Timberline Stables (a former dioxin site) and Gastineau Log Homes manufacturing location. The burn pile is located behind the Alelco, Incorporated building on the south side and the burning is visible from the highway if traveling from the West going East. The fire was burning at 7:30 a.m. on Thursday, April 24, 2006. The burn area is approximately six feet by six feet. The complainant noticed dark smoke and an odor of petroleum. The complainant also noticed someone standing behind the building holding a roll of wire. The complainant believes the coating was possibly being burned off the roll of wire.

<b>Comments</b>	At the time of the inspection, Ms. Evans discovered a classic outdoor wood furnace, burning wood and untreated lumber sticks from Hutchens. The reported party installed the stove in February and takes the ashes to Hutchens for disposal in their dumpsters. Ms. Evans did not find any evidence of tires, solvents or other things in or around the stove. Ms. Evans suggested the reported party add another section to the stove chimney in order to raise the emission point. The reported party stated he would do this. Ms. Evans did not note any violations.								
<b>Comp. No.</b>	SW8562	<b>Comp. Info</b>	The complainant stated the reported party is burning solvent, waste oil, plastic, and pieces of tires in an outdoor woodburning stove. The reported party's stove also heats water for the house, which is why the reported party is continuing to use it. The complainant believes the reported party has been burning these items for approximately one week. Black tar is oozing down the sides of the chimney pipe. The complainant has reported this to the city, but the city hasn't done anything. The smell is oppressive and is getting into resident's homes. The department can contact the complainant if further information is needed.

<b>Comp. No.</b>	SW8586	<b>Comp. Info</b>	On May 16, 2006, the department's Environmental Emergency Response (EER) spill hotline received two complaints concerning asbestos containing floor tiles being removed from the Joplin High School on May 15, 2006. On May 17, 2006, the EER referred the complaint to the department's Southwest Regional Office (SWRO) on May 17, 2006. The complainants believe the reported party is improperly removing asbestos and failing to properly clean up the dust.

SWRO	5/25/2006	5/25/2006	WILLOW BROOKS FARM	Butterfield	Barry	Burning	Matthew Baumer		PFV
<b>Comments</b> Mr. Vitzthum contacted Mr. Len Crabtree with Willow Brook Farms. Mr. Vitzthum asked Mr. Crabtree to check out the farm in question. Mr. Crabtree confirmed it was a contract farm and their incinerator's after burner had a malfunction. The reported party repaired the after burner and the excessive odors and smoke went away. Since it is a non-commercial agricultural incinerator and these are exempt from the regulations, there were no violations. No further action necessary at this time.									
<b>Comp. No.</b>	SW8620	<b>Comp. Info</b>	The complainant stated a turkey farm is burning dead birds at the time of the complaint, and it smells so bad the complainant cannot leave his house.

<b>Comments</b>	East of Melville, Ms. Evans noticed very faint odors. A watering truck was operating at time of Ms. Evans' investigation. Ms. Evans could not determine the dust was leaving the property. The site was in operation and dust was coming off the conveyor. The spray bar was in operation. Ms. Evans spoke with Jacci Gamble by telephone and was informed that Cones Quarry is in a lawsuit with the City of Willard. Ms. Evans did not observe any violations.								
<b>Comp. No.</b>	SW8621	<b>Comp. Info</b>	The complainant stated dust is blowing off the reported party's property.						
SWRO		5/26/2006	HEMBREE'S TRASH SERVICE	Halltown	Lawrence	Burning	Anonymous		
<b>Comments</b>									
<b>Comp. No.</b>	SW8626	<b>Comp. Info</b>	The complainant stated the reported party has a business of collecting trash from all over. The complainant stated the reported party puts trash in a burn pile and burns the trash on site when the reported party is unable to take the excess trash to the local landfill. The complainant believes the reported party burns trash with unknown components and wastes. The post-burn particulate matter (i.e. burned material, liquids and storm water) runoff leaves the reported party's property and runs off into the complainant's water source used as a private well. The complainant is concerned about whether the water from their well is safe from the seepage and leaks from the burn pile when it rains and runs downward toward the complainant's property.						
SWRO	6/1/2006	5/30/2006	CENTRAL STATES REFINERY	Versailles	Morgan	Burning	Anonymous	GLE	
<b>Comments</b>	No smoke or odor present at time of Ms. Evans inspection. Ms. Evans did not observe a malfunction, equipment has been working properly. Ms. Evans noted routine maintenance is performed. The facility does emit smoke for a short time during start-up. The incinerators are, on an average, loaded every two weeks for 10-14 days. They burn and then cool down. Ms. Evans conducted a compliance inspection and found the facility in compliance. Ms. Evans spoke with the president at the company, Mr. Merle Strowmatt. No violation issued at this time.								
<b>Comp. No.</b>	SW8632	<b>Comp. Info</b>	The complainant stated the reported party reclaims material out of x-ray film then burns the remainder through a straight stack.						
SWRO	5/30/2006	5/30/2006	UNKNOWN	Mount Vernon	Lawrence	Burning	Anonymous	MJG	
<b>Comments</b>	The inspector arrived on site 1:50 p.m. and noticed white smoke and an open tire fire behind an abandoned building. The fire may be associated RES to the South. Mr. Austin McCann was located in a rental bungalow. Mr. McCann claimed not to know the name or contact information for the property owner. Mr. McCann indicated he was instructed by the owner to place brush in close proximity to a refuse pile. The fire spread from the brush pile to the refuse pile. The refuse pile continued to burn. Refuse included electronic game parts including circuit boards, CRT's and game bodies. The inspector instructed Mr. McCann to extinguish the fire before is spread into nearby woods and abandoned structures. Mr. McCann stated he would do this. The County Assessor indicates the owner is Ms. Janice Franklin of Sarcoxie. The inspector issued a verbal warning to Ms. Janice Franklin about open burning restrictions.								
<b>Comp. No.</b>	SW8637	<b>Comp. Info</b>	The complainant reported very black smoke from some type of burning activity. The complainant stated the odor will gag you as you drive through the smoke.
